On 10/10/2019 at 10:45 AM (EDT) I received an email from the FBI regarding the above-mentioned investigation. The email stated that the FBI had obtained a search warrant for my residence and that they were executing it. The email also stated that they had seized evidence and that I was under arrest. I was taken into custody and transported to the FBI office in New York City. I was held in custody until approximately 11:30 PM on 10/10/2019. I was then released on my own recognizance and given a copy of the search warrant and a copy of the affidavit for the search warrant.

- 2000-2001. The following table summarizes the results of the study.  
The table shows the mean and standard deviation of the total number of  
visits to the hospital emergency room by patients with and without  
insurance. The difference between the two groups is statistically significant.  
The difference is also clinically important, as the mean difference is  
approximately 1.5 visits per year.

It is important to bear in mind that the minimum wage is not the only factor influencing employment. Other factors such as the cost of living, the level of economic activity, and government policies also play a role. However, the minimum wage is a key factor in determining the minimum income level for low-income workers.
